

June 20, 2011

To: Our Valued Customers, Suppliers and Other Business Partners:

We are excited to announce that, effective today, we have fully relocated our Tru Machine and MultiSource Aerospace divisions to our new facility in Ramsey, MN. This location will now be known simply as MultiSource Manufacturing LLC, with the Ramsey address. The building is less than fifteen miles from both the previous Tru Machine and MultiSource Aerospace locations.

This relocation, which was originally announced in January 2011, is the result of a lot of hard work for all of us, and we appreciate the support shown throughout the process by all of our business partners. Our building contains over 41,000 square feet of newly-configured and finished office and shop space and is home to over 80 of MultiSource's finest people, as well as 60 machine tools. The facility, equipment (we've purchased over \$1 million of new equipment just for this relocation) and people have allowed us to significantly increase our current and potential capacity.

Our new address and location contact information are:

6690 Sunwood Drive NW
Ramsey, MN 55303
763-582-1000
763-582-1100 (Fax)

Please note that your key contact people also have direct-dial phone numbers now. They will inform you of those numbers shortly, so you will be able to reach them directly for your convenience.

We look forward to continuing to serve your needs from our "new digs." Attached please find a photo of our new facility for your reference...we've worked very hard and are thrilled to provide such a terrific facility to our employees, customers and other partners.

Thanks again for all of your support and assistance through this exciting process. We look forward to continuing to grow with you!

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Schuffenhauer".
